

# COLORED MORTARS

## PRECISION AND CONSISTENCY IN EVERY BATCH

Amerimix's state-of-the-art color lab is dedicated to delivering consistent, preblended color to every bag of mortar and every jobsite across the country. Our technicians work tirelessly to adjust formulations to account for color variations in cements and aggregate, meaning you're always getting the same color whether you're in Florida or California.

This in-house expertise also allows us to offer an endless array of custom-formulated color options. Whether selecting from our standard set of colors or matching another manufacturer's, we'll work closely with you during the specification process to bring your vision to life.

From leading R&D efforts to constantly improve our products, innovating new solutions and ensuring that each batch of mortar meets the highest standards, you can be confident that our world-class team will deliver world-class results for your project.

# MORTAR COLORS

	Alabaster	Greystone	
	Soft Ivory	Sage	
	Concord Ivory	Pale Smoke	
	Polar Frost	Dove Gray	
	Shady Lane	Ash	
	Quarry Rock	Mystic Gold	
	Artichoke	Sandstone	
	Driftwood	Peanut Brown	
	Chablis	Soft Tan	
	Wet Clay	Summer Tan	
	River Mist	Dandelion	
	Peachland	Autumn	
	Cocoa	Acorn	
	Burnt Russet	Fawn	
	Sunset Rose	Deep Taupe	
	Brick Red	Raisin	
	Rustic Red	Dark Brown	
	Mocha	Domino	

**NOTE:** Colors are similar to actual finished color, but should only be used for reference.

Contact our team for a physical sample of the colors you're interested in, and always construct a jobsite panel for review and approval before making a final color selection.

Variations in color may occur due to normal variations in color of cement and aggregates, water/cement ratio, striking time, cleaning procedures, curing or weather/atmospheric conditions.
