## SWITCH TO AMERIMIX FOR...

### 50% FASTER MIXING & A CLEANER JOBSITE

Field batching is back-breaking, time-consuming work. With Amerimix, everything is in the bag, meaning faster mixing, less waste and a cleaner, more organized jobsite.

## MAXIMUM EFFICIENCY

### THE PERFECT BLEND IN EVERY BAG

No two field-blended batches are the same, impacting color, workability and performance.

Amerimix eliminates the guesswork of "measuring" with a shovel – just add water and go.

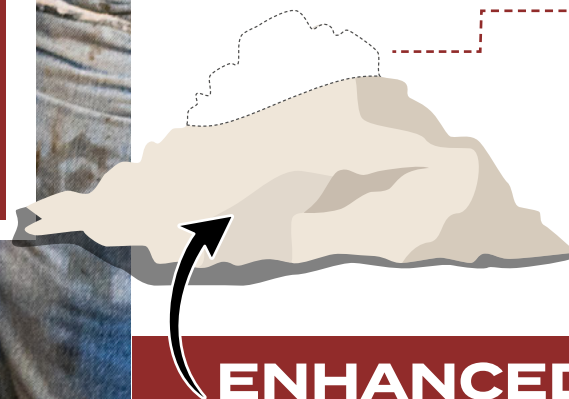

## SUPERIOR CONSISTENCY

### 30% MORE MUD IN EVERY BATCH

The volume of a damp sand pile is "inflated" by 30%, throwing off ratios and reducing wet yield.

Amerimix is delivered at 0% moisture, delivering more precision and 30% more mud in every batch.

## ENHANCED YIELD

## It's Time to Ditch the Sand Pile

For construction professionals who want the most out of their mix, Amerimix is a better, more efficient way to build.

Our pre-blended mortar, grout and stucco mixes are developed by contractors for contractors, providing consistency backed by proven results.

# MORTAR PRODUCTS

**LESS MIXING.  
MORE BUILDING.**

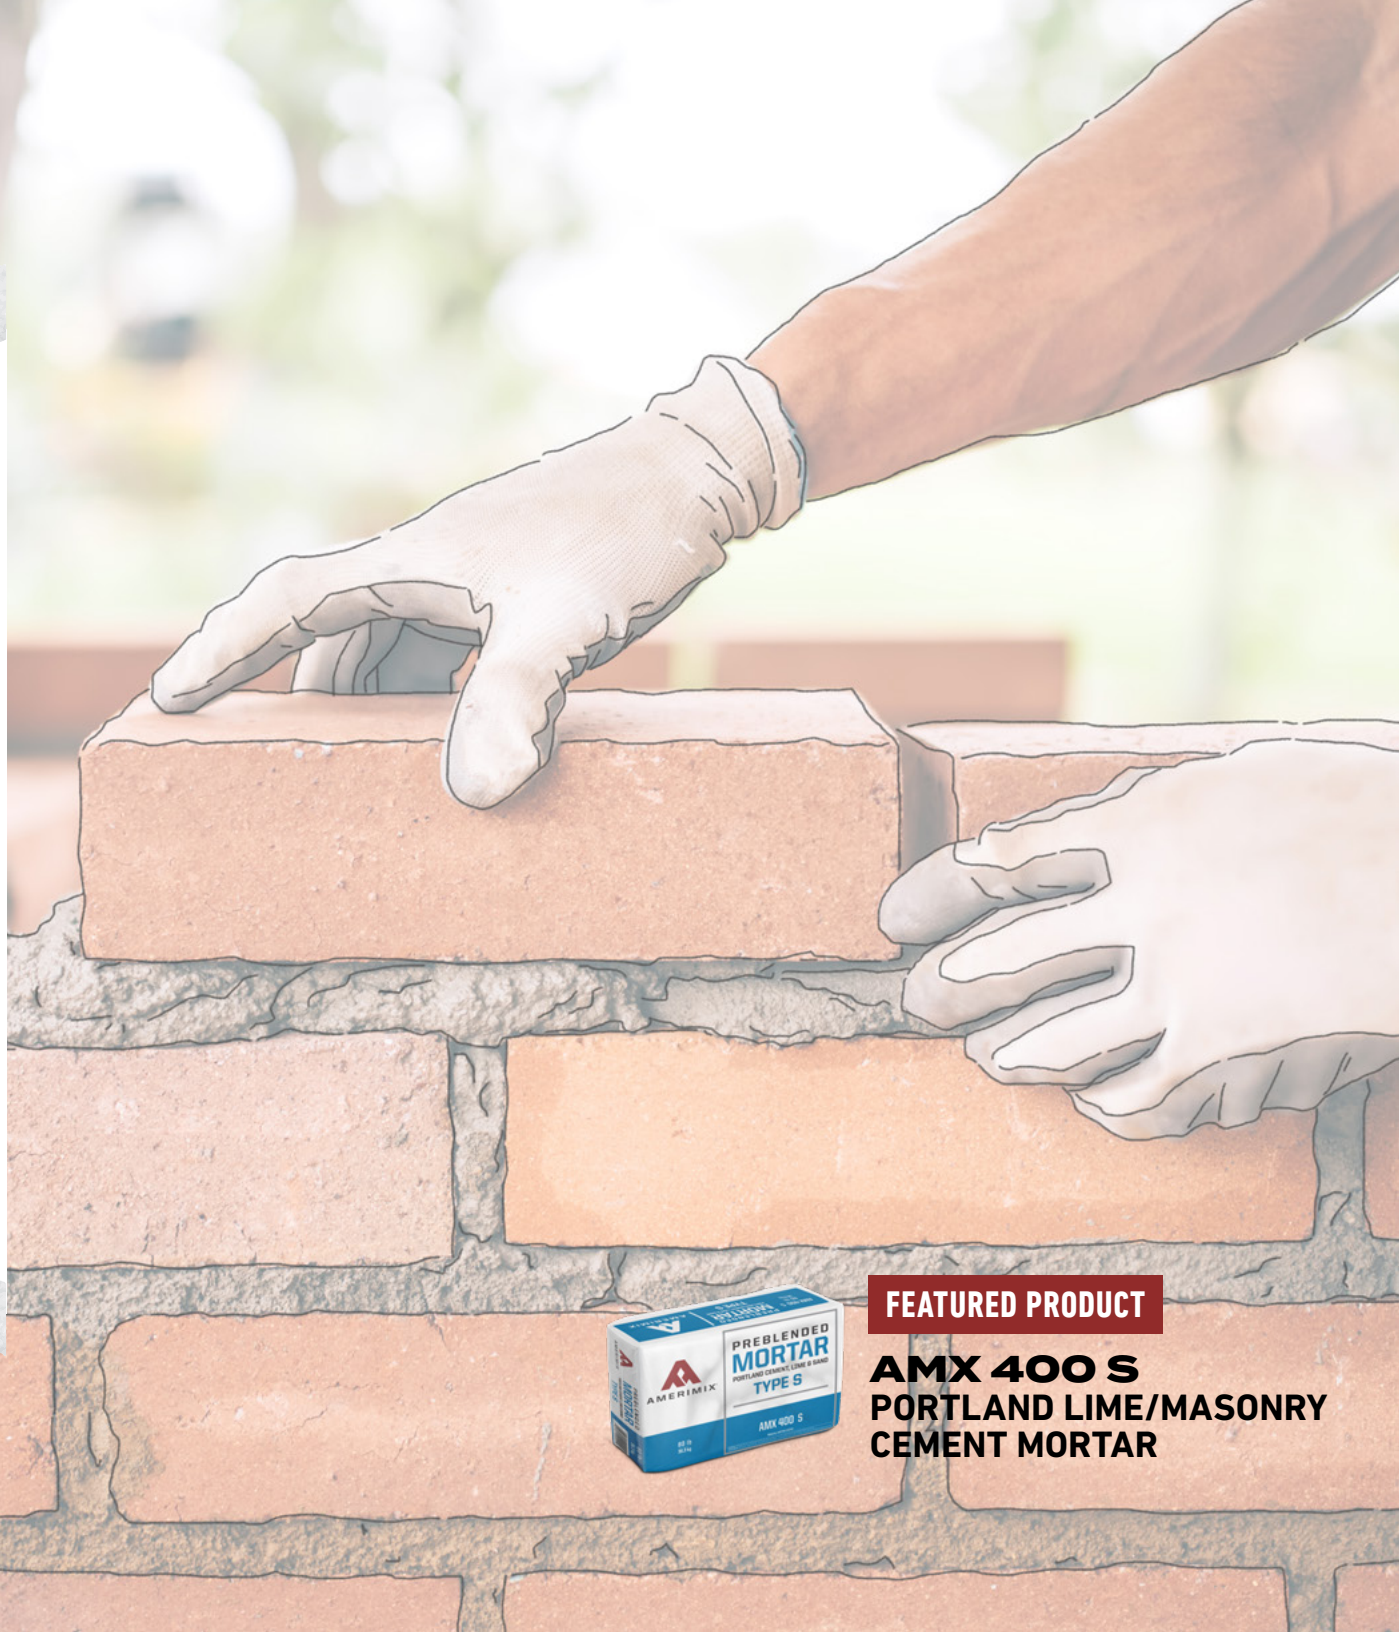

Amerimix preblended mixes yield 30% more mortar than traditional field blended mortar, increasing output while delivering consistent, dependable results.

Amerimix products are available as a Portland-Lime formulation (AMX 400) or Masonry Cement formulation (AMX 500), as well as with a wide range of performance-enhancing admixtures.

**FEATURED PRODUCT**

**AMX 400 S

**FASTER  
ESTIMATES.  
BETTER JOBS.**

Use our project calculators to **quickly generate estimates** for mortar, stucco and grout. Forget the guesswork and get the info you need to get the job done right.

## SAND PILE WASTE IS NO SMALL PROBLEM

Approximately **15% of your sand pile is waste**. Between contamination, spillage and wind- and rain-driven erosion, that cheap sand pile gets a little less attractive with every day on the job.

# WE'VE GOT YOUR BACK

The Amerimix difference goes beyond our products, with superior service, expertise and support at every step of the way.

## KICK-ASS SERVICE. UNBEATABLE SUPPORT.

We're here to help you get the most out of every job. Get in touch with us today for answers to your questions or assistance with a project.

Call 866-725-7383 or visit [Amerimix.com](http://Amerimix.com).

### JOBSITE DEMOS

Experience the Amerimix difference first-hand with a jobsite demo. Give us a call, and we'll make believers out of your team.

### CONTINUING EDUCATION

Stay up-to-date with industry trends and best practices by scheduling a Lunch & Learn.

# IMPROVE JOBSITE PRODUCTIVITY

## AVAILABLE BULK SILO SYSTEMS

**AUGER SILO**  
Capacity:  
Up to 12,000 lbs

**1 BAG SILO**  
Capacity:  
Up to 4,500 lbs

**5 BAG SILO**  
Capacity:  
12,000 – 15,000 lbs

**10 BAG SILO**  
Capacity:  
24,000 – 30,000 lbs

Amerimix bulk silo systems can reduce mixing times by up to 50%, providing significant labor savings on your large projects.
